

SHOOT HOLD UP MEN THE CAUGHT IN ACT

Order Sent Out by Chief of Police Kipley in Chicago.

CITIZENS TO GO ARMED

Official Alarm Over Sudden Revival of Crime in the Windy City.

THIEVES ATTACK MRS. POTTER

Chicago, Nov. 13.—"Shoot hold-up men caught in the act of robbing citizens" is the order sent out this morning by Chief of Police Kipley to department heads.

Mayor Harrison also suggests the co-operation of the people which practically means go armed.

All of this is brought about by the sudden revival of crime in this city. The robbery of the residence of the millionaire, O. W. Potter, and the brutal treatment of his wife by the burglars has accentuated the situation this morning. The Potter residence on the Lake Shore was robbed on April 18 of a thousand dollars' worth of jewelry. This morning's gang got nothing, but beat Mrs. Potter severely when discovered.

Eight or ten other hold-ups on the streets last night created a stir in the city today.

BURGLARS BEAT MRS. POTTER.

Attempt to Drug the Steel Magnate's Wife Last Night.

Chicago, Nov. 13.—With a chloroform rag in her face and a burly burglar bending over her bed, Mrs. O. W. Potter, wife of the steel magnate, awoke at 1 o'clock this morning. The burglars were pushing the drugged rag close up to her nostrils that she might get the full effect of its stupefying fumes. "Help! Help!" she cried, realizing what was happening, and springing from her bed. As she sprung to her feet the burglar struck her with his fist and felled her to the bed again. She is in a serious condition as a result of the blow, and there is a possibility the police will have to hunt for a criminal to answer a more serious charge than housebreaking.

When she heard her mother's cry of "Help!" Miss Margaret Horton Potter, who sleeps in an adjoining chamber, rushed out in her night robe. Dashing into her mother's room she came face to face with the burglar. She shrieked and ran toward the prostrate figure of her mother lying on the bed. The burglar took advantage of his opportunity and slipped from the room. Seeing that her mother was not dead, Miss Potter left her and ran to the part of the building where the servants sleep. Pounding on the different doors, she aroused several of both sexes, and, thus re-enforced, made her way back to her mother's chamber. Mrs. Potter was still unconscious. Leaving a servant to watch by the side of her mother, Miss Potter then ran to the telephone and summoned the police. A patrol wagon load of police from the Larrabee street station, in charge of Lieut. Smith hurried to the residence. A quick report of the affair was secured and policemen were sent in every direction to search for the robber. He was not found, however, and, although several colored men were arrested, they were all able to satisfy the police that they were not the guilty persons.

RETAIL GROCERS WILL ORGANIZE

Badger State Dealers will hold a Convention in Milwaukee to Form a Combine for Wisconsin.

Milwaukee, Wis., Nov. 13.—The Milwaukee retail grocers' association last night decided to issue a call for a state convention of retail grocers and general merchants, to be held here on Dec. 5, 6, and 7, for the purpose of organizing a state association.

The object to be secured by organizing is similar to that sought by other lines of business—mutual benefit. The most widely desired reforms in the grocery business are better collection laws and the abolition of the trading stamp.

"This is the age of organization," said Mr. Bartlett, "and the retail grocers should keep pace with the times. The only way to secure desired reforms is by organizing and making a united fight for them."

There are thirteen local associations in Wisconsin outside of Milwaukee. Before the state convention meets Mr. Bartlett hopes to have other associations organized. It is expected that 300 or 400 grocers from the interior of the state will attend the convention.

Twenty-three states now have or

FATAL HEAD-END COLLISION.

Fireman of a Texas Train Killed and Others Badly Injured.

Dallas, Texas, Nov. 13.—One death and several perhaps fatal injuries for a number of persons is the result of a head-end collision on the Missouri, Kansas and Texas railroad between Sherman and Dennison this morning. Both engines and a number of cars were demolished. The dead: D. H. Weaver, fireman; crushed to death.

The injured: C. A. Andrews, vice president Grayson County National bank of Sherman; likely to die.

Caruthers, conductor.

Edward Bingham, brakeman.

Reeper, express messenger.

Charles Young, engineer.

It is thought all of these men will recover. Several others received minor injuries, but were able to care for themselves.

SUDDEN DEATH OF PROF. ROSENSTENGEL

HEAD OF THE GERMAN DEPARTMENT AT THE VARSITY.

He Stood High in His Profession as an Educator—Best Text Books in German the Work of His Hand—Engineers Go Inspecting—The Glee Club Begins Work.

Madison, Wis., Nov. 13.—Professor William H. Rosenstengel, for over twenty years at the head of the German department of the state university, died very suddenly last night. Prof. Rosenstengel was in apparently good health up to the time of his death and had been attending to his work regularly. He attended the weekly faculty meeting yesterday afternoon and while there he was stricken with heart disease.

Medical aid was immediately summoned but the professor was dead before assistance arrived.

William H. Rosenstengel was born in Germany fifty-eight years ago. He received his education in his native land.

In 1865 at the age of twenty-three he came to America and for the following fourteen years he was engaged in teaching German in a St. Louis college. He received the honorary degree of master of fine arts from Williams college. In 1879 he was called to Wisconsin to fill the chair of Professor of the German language and literature, which position he held continually up to the time of his death. His work here at the head of the German department was very successful and under his able direction the department has grown until it is now one of the largest in the university.

Prof. Rosenstengel stood high in his profession as an educator. Several of the best text books in German are the work of his hand. He leaves a wife and two daughters in Madison who will have the sympathy of a host of friends in their bereavement.

Engineers Go Inspecting.

Every year the seniors in the engineering courses of the university are given an opportunity to inspect the great manufacturing plants and engineering constructions of Chicago and other great western cities. This is done on an annual trip taken by these students in company with the professors of these departments. Yesterday about twenty students left for Chicago with Professors Bull and Tuncare to inspect the chief manufacturing plants of the city.

Glee Clubs Begin Work.

The varsity glee and mandolin clubs have taken in their new members and are practicing new music for their annual trip. Plans are being made to visit several cities in the northern part of the state that have not been visited on former trips. The trip will last about ten days.

BOTH HER ARMS AND LEG CUT OFF

Horrible Accident to a Poor Woman Picking Up Coal in a Beloit Railway Yard.

Beloit, Wis., Nov. 13.—Mrs. Mary Riley, an old resident of this city had both her arms cut off by the cars this morning. Mrs. Riley was gathering up coal around the St. Paul tracks when a freight train run over her. The ambulance was called and she was taken to the strong Emergency hospital. It is thought that she will not recover.

CREAMERIES WILL FORM A COMBINE

DAIRY INTERESTS OF NORTH-WEST TO JOIN A TRUST.

New Corporation to Have a Capital of \$20,000,000 and To Be Formed Within Two Months—Being Promoted by a Chicago Syndicate—Farmers Will Dictate the Price.

Milwaukee, Nov. 13.—Plans for the formation of a butter and cheese trust with a capital of about \$20,000,000, whose territory will include Wisconsin and the other Northwestern states, are likely to be consummated within two months.

The plan is being perfected by Chicago men.

Being Promoted in Chicago.

While admitting that his company was to go into the proposed trust, A. M. Reid, vice president of the Champey company, refused to give out the names of any others who are interested. He said that Chicago millionaires were pushing the plan, but was unwilling to name any of the promoters. He said that the cost of the large Wisconsin creameries would be in the combine, and added that within two months the organization would probably be in working order.

"It will take from \$15,000,000 to \$20,000,000 to buy out the various creameries which it is proposed to absorb," said Mr. Reid. "The plan that will be adopted will be that of most consolidations, the purchasing outright of the smaller creameries, bonds and part cash being given in payment."

Farmers Now Dictate.

"To organize a trust is the only way in which any money can be made out of the creamery business. The farmers have been practically dictating the price to be paid for milk by the creameries. They would offer their milk at a certain price and if the milk would be refused would go to the next creamery with it. The creameries were thus forced to buy at the seller's prices, cutting down the profits to a minimum."

"The plan will include all of the leading creamery interests in this state. It is not known what creameries will be included, though many of them have been approached on the subject. A couple of months will probably see the new organization operating factories however."

Friedman, David May, L. Gutman, M. Friedman, William Weil, L. Levi, all of Denver. It was decided to establish an institution in each large city, so that applications for admission can be facilitated.

AMUR MASSACRE NOW CONFIRMED

TWELVE THOUSAND CHINAMEN DROWNED BY RUSSIANS.

A Belgian Traveler Describes Awful Scenes—Navigation on the River Was Almost Impossible—The Boat Plowed It Way Through a Tangled Mass of Dead Bodies.

London, Nov. 13.—The Globe prints a letter from a Belgian traveler in China describing the massacre by the Russians of Chinese along the Amur river. The writer says that two thousand Chinese were drowned at Marxo, two thousand at Rabe and eight thousand around Blagovestchensk. Navigation was almost impossible, the boat having to plough its way through a tangled mass of corpses.

REPORT OF U. S. TREASURY.

Revenue for Year Largest in the Nation's History.

Washington, Nov. 13.—The annual report of the treasurer of the United States, Ellis H. Roberts, on the operations and condition of the treasury, has been submitted to Secretary Gage. Mr. Roberts says the growth and prosperity of the country and the general activity of business are reflected in the transactions of his office. The net ordinary revenues of the government for the fiscal year were \$567,240,852, the largest in the history of the country, exceeding those of 1898, the next highest, by \$47,201,288. The increase of \$51,280,232 over the preceding year was contributed from all the general sources, but chiefly from customs and internal revenue. On the side of the expenditures there was a net decrease of \$117,358,388 in comparison with 1899, so that the deficiency of \$39,111,560 for that year was converted into a surplus of \$79,527,060 in 1900. The gross receipts under warrant, including those on account of the public debt, were \$1,387,299,262, and the disbursements \$1,195,943,472, a large increase on both sides over the previous year. With the exception of July, 1899, when there was a deficiency of \$5,506,832, a surplus was realized for every month of the year, the one for June being the largest, at \$17,895,159. The largest receipts for a single day were \$5,199,513, Feb. 26, 1900, and the largest expenditures \$4,803,000, July 3, 1900. The largest surplus on any one day was \$4,047,396, Aug. 29, and the largest deficiency \$2,318,621, July 5, 1899.

PARIS FAIR IS AT AN END.

Gaumont's Boom from Eiffel Tower at Midnight Marks Close.

Paris, Nov. 13.—The world's exposition, which was officially opened on April 15, closed at 10 last night with the firing of a cannon from the Eiffel tower. All Paris seemed to be there and the vast show never looked better than during the closing hours.

The grounds were black with people, forming an effective contrast to the brilliantly lighted palaces and myriads of colored lanterns which illuminated the Champs Mars and the Trocadero. Tickets which at the beginning cost a franc were offered to-night at five for a cent. All day crowds thronged the principal avenues and galleries, though in many of the latter there was little to see, stall holders everywhere being engaged in packing their exhibits. All the foreign pavilions have been closed for several days. The total of paid admissions was 40,000,000. Including free tickets, the total is more than 50,000,000. The average attendance was about 250,000 daily, the largest number being that of the first Sunday in September, 600,000.

Attendance at World's Exhibitions.

St. Paul, Minn., Nov. 13.—Senator Davis' life is despaired of this morning.

ALL READY FOR THE FAT STOCK SHOW

EXHIBITION TO OPEN IN CHICAGO ON DECEMBER 1.

Entries of 10,000 Head—Purpose is to Demonstrate to Farmers the Profits That Are Derived from the Raising of Pure Bred Cattle—All Breeds Will Be Seen.

Chicago, Nov. 13.—The managers of the international fat stock show have their plans practically complete. When the doors of the cattle show open on December 1 accommodations will be ready for 3,500 head of prize cattle. The car lot exhibits will bring the entry list up to 10,000 head to be shown during the exposition.

The premiums donated by the American Breeding association and the allied stock and railroad interests of Chicago amount to \$75,000. It is calculated that it will take 800 yards of ribbon for the premiums to be awarded the first week in December.

The organization of the association was undertaken more than a year ago at the invitation of the Toronto breeders. Kansas City stock interests tried hard to get the show for their city, but the indisputable supremacy of Chicago left no question in the minds of its promoters as to the proper place to locate an international exposition.

Exhibit of Pure Bred Cattle.

The feature of the show will be the carload lots. Breeders and feeders will exhibit loads of fat stock, both pure and cross bred. The pure bred side of the exposition will be in the nature of a lesson to those who have been slow to recognize the value of improving beef cattle by the introduction of pure beef breeds. It will also afford an opportunity to possible purchasers. The managers say that in no other way can the growth of the modern cattle industry be so well shown as in this comparison of the old long horn and the modern white face or Aberdeen Angus. Other important lessons will be taught.

The era of free grass is over and the corn bred steer is cutting out the old Texas steer. The most successful breeders say that it is important to put as much weight as possible on each head of cattle. The farmer of the Middle West could not compete with the ranchman in the days of free grass. But today, with the necessity of artificial feeding, stock men say, the farmer can enter the market to great advantage. He must, however, breed from the best beef stock.

The draft horse class will draw the attention of many who will take only a passing interest in the other part of the exhibit. There are classes for six breeds and one for horses in harness.

WILL TEST TAX ON INHERITANCE

Heirs of the Black Estate in Milwaukee Will Test the Constitutionality of the Law.

Milwaukee, Wis., Nov. 13.—The constitutionality of the Wisconsin statute which imposes a tax upon personal property passing to heirs, is to be tested by the residuary legatees under the will of John Black. They will claim also that if the will is constitutional, the residuary estate under the Black will is exempt for the reason that the personal property was assessed for taxation during the years of 1898 and 1899 and the taxes paid.

The residue of the personal property according to the account which was filed yesterday and accepted by Judge Walber under waiver of the heirs, is \$336,103.53. The total receipts of the estate were \$393,076.15 and the disbursements were \$26,972.62.

This is the first time that the constitutionality of the inheritance tax has been questioned in any of the courts, and it is likely that it will go to the supreme court.

MARK HANNA ON WORK OF CONGRESS

Names Three Great Bills Whose Fate Will Be Decided During the Next Session.

Cleveland, O., Nov. 13.—Senator Hanna has returned here from a visit to New York. He expects to remain until congress convenes. He said:

"Congress this year will have some very important duties to perform. Three great bills, the Nicaraguan canal bill, the army bill and the ship subsidy bill are all to come before it. I presume that there will be changes of some importance in the canal bill. The Costa Rican treaty especially involved us in considerable difficulty and the Costa Rican government had to be consulted with."

"I have no pet measure this year. Perhaps I am as much interested in Senator Frye's ship subsidy bill as any."

QUEEN OF SERBIA DIES WITH FEVER

Young King Fell in Love with Her While She Was His Mother's Waiting Maid.

Paris, Nov. 13.—The Echo de Paris prints a telegram saying that Queen Draga of Serbia whose marriage to King Alexander a few months ago caused a sensation has died of puerperal fever.

Draga Maschin was a young lady in waiting to Queen Natalie when the young king fell in love with her. Natalie was indignant at the presumption of the waiting woman and when King Alexander announced his betrothal his ministry resigned and former king Milan resigned as commander of the army and quitted the country.

Nevertheless the people rejoiced and the nuptials were celebrated by fetes. Since the marriage Milan it is reported, plotted to kidnap Alexander. The report of her death originated through Milan.

Indianapolis, Nov. 13.—All the coal mines in Indiana are idle today. The companies assert they offered to pay the present wages till January when they meet at Columbus and cannot say how long the strike will last.

No Change in Confession.

New York, Nov. 13.—Because of a rule which gives the moderator of a rule which gives the casting vote in a tie ballot, the conservatives of the New York presbytery scored a victory today, and as far as this presbytery can influence the final decision the Westminster confession will stand unchanged.

PORTO RICO IS NOT A FOREIGN LAND

Jurist Declares Since the Island Was Ceded by Spain It Is Part of This Country, Not Allied Port.

New York, Nov. 13.—United States Judge Addison Brown decided today that Porto Rico was not a foreign country. The case was brought by Joseph Bigley, Christian Hauss, and Thomas Torgerson, pilots, against New York and Porto Rico Steamship Company and others for pilotage fees for services offered and rejected for the steamship Ponce and the schooner C. F. Whittier in June last.

It was understood that the libellants were entitled to \$171.88 provided it was found that the vessels were bound to or from a "foreign port" and were not engaged or employed in the coasting trade. In his defense Judge Brown says:

"It is evident that Porto Rico since the cession of the island by Spain to the United States, is not a foreign port, and is subject solely to the sovereignty and dominion of this country."

This wipes out pilotage charges and the judge therefore, dismissed the libels with charges.

ERUPTIONS

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to help the system discharge the humors, and to strengthen it against their return.

Hood's Sarsaparilla permanently cured J. G. Hines, Frank, Ill., of eczema, from which he had suffered for some time; and Miss Alvina Walter, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of this great medicine than can be published.

BOOKS OF THE CITY TREASURER ARE O. K.

REPORT SENT TO THE COMMON COUNCIL LAST NIGHT.

Northwestern Road Asks Privilege to Build a Spur Track Along West Bluff Street—Bonds to Pay for Improving South Second Street—Routine Proceedings.

Mayor Richardson presided over the regular meeting of the common council last evening all the aldermen being present except Valentine and Sennett.

The report of the city treasurer for the month of October was received and referred to the judiciary committee, who reported favorably and it was placed on file.

The notice of personal injury served on the city clerk by Mrs. Harris was referred to the judiciary committee.

An application of the C. & N. W. R. R. for a franchise to build a spur track along west bluff street was referred to the judiciary committee who asked for more time which was granted.

Alderman Gilkey of the finance committee reported favorably on a batch of bills which were ordered paid.

He also stated that E. A. Hyde had examined the books of the city treasurer and that the same was correct, a statement to that effect being on file in the clerk's office.

Alderman Rice of the highway committee presented an application from M. H. Curtis and other owners of certain lots in Miltimore's South addition asking for the vacation of a portion of the highway from the south line of the Janesville & Southeastern railroad on Eastern avenue and running north-easterly to Center avenue. The petition was signed by all of the property owners whose land abutted on the highway asked to be vacated. Due notice of the pending application had been filed in the office of the register of deeds for Rock County prior to making such application as required by law. Due notice had been given that the application would be acted upon on the 12th day of November at 7:30 o'clock p. m. at the council pursuant of an order made by this council on October 31, 1900.

Alderman Rice introduced a resolution vacating the portion of the highway asked for in the petition of M. H. Curtis and others which was adopted.

A quit claim deed from M. H. Curtis and wife to the City of Janesville of a strip of land forty feet wide for a new highway to take the place of the one vacated was accepted.

Alderman Rice presented the special assessment list for improving South Second street which was adopted.

Alderman Rice presented a resolution authorizing the mayor and city clerk to prepare and issue six bonds of \$100 each to cover the cost of improving South Second street. The bonds to bear interest at six per cent.

Alderman Rice introduced an order directing the city clerk to draw an order on the city treasurer payable from the general fund for \$126 in favor of Harry Garbutt rebate on personal taxes erroneously assessed.

The street commissioner was directed to inspect all sidewalks, sewers, culverts and bridges as required by Section 20 of Chapter 3 of the city charter. He was authorized to employ such help as was necessary to carry out the order.

On motion of Alderman McLean permission was granted David Jeffries to use a portion of West Milwaukee street in front of lot 139 Smith, Bailey and Stone's addition during the erection of a building on part of the lot. He to hold the city harmless against any and all costs or damages arising from such occupancy.

Alderman Gilkey asked that further time be granted in the matter of vacating George place in the Spring Brook addition.

Alderman Gilkey asked that the council proceed to elect a school commissioner in the Third ward in place of George E. King, who had left the city.

Alderman Hutchinson wanted to know if the council had been notified of a vacancy in the school board. Alderman McLean thought it courteous to the board of education to elect a school commissioner before they were notified by the board that a vacancy existed. The council proceeded to ballot for school commissioner all the aldermen voting except Hutchinson.

FALL FASHIONS.

Back Coats Are the Style For Children's and Women's Wear.

It seems that we are to be obliged to accept the ugly sack coat not only for ourselves, but for our children. We find the finest of materials, such as are accepted particularly for children's use, made up in these shapeless models, and, though they may be comfortable and all that, they certainly are not beautiful.

For a child of 12 there was shown the other day a coat of light biscuit kersey in a good, heavy weight, quite heavy enough to be suitable for all but the coldest days, though it is really designed for early fall. The reason stress is laid upon this is because it is a type of so many other coats for not only little, but big girls and their mothers.

A glance at the illustration will show the general form, and as for the trimming, it can be varied to an unusual extent. The back is cut all in one piece, and there are two side pieces

The reason I have been so circumstantial in describing this coat is because it bids fair to be the most fashionable of all, and it is one which mothers will find easiest to copy. Most of us have something which would answer to make one of these little coats, a coat of the best pieces of a cloth dress or perhaps the spring overcoat of one of the men folk, and it would be a sin to go and buy one when such a chance to display our economy is at hand. What does it matter if the men have to buy new coats next spring or even this fall? We have demonstrated our economical dispositions. But if one has to buy the material I may say that it requires 1½ yards of covert or other double width stuff for a coat for a girl of 12. But it must be of such cloth as has no nap. Covert, venetian, whipcord and camel's hair are all suitable and cut to advantage.

While speaking of children's wear I may say that there are many shapes of felt hats, but the best, because the most adaptable, is the flat brim and rather high crown. Large bows of taffeta or lustrous surah or, in short, any of the wide ribbons are to be made up into full, stiff bows and loops, and, if liked, a few daisies or velvet forget-me-nots can be added or perhaps a quill or two, but ribbon is the proper trimming for children's hats. Plaid taffetas are more used for everyday hats than plaid, and in some cases we see a whole row of pompoms around the brim. Dark and all black hosiery is the best, and few think of putting anything but black upon a girl except for a party, when the stockings may match the colors in the rest of the costume.

The liking for the black silk tailor suit grows apace, and in every one of the best houses we see from one to four or five of them, but if they were not labeled "Tailor Suits" we might lose sight of that fact, for some of them are more ornamental than we have ever expected to see in a real tailor gown. One shown by the leading store in New York has the skirt sewed in with thick featherbone cords in wavy lines, and these are graduated in length, the longest being in front and the shortest ones in the back. None of them reaches the bottom of the skirt, and around these are three rows of the cording set in in wavy lines.

I should have said that the silk was black peau de soie. The waist had an undervest of the palest blue silk draped to a point in the back and also draped at the neck. There was a figaro of the black, and this was sewed around with the featherbone cords, but rather less heavy than those in the skirt. The sleeves were also corded. A row of cream colored rennaissance lace finished the figaro. An illustration of this suit is given, and that will assist any one who may wish to make one like it.

HENRIETTE ROUSSEAU.

BLACK SILK TAILOR SUIT AND GIRL'S COAT. and two fronts. The piece in the back is almost straight, with a very slight flare at the bottom and sides barely sufficient to give free motion.

In front it is closed by one, two or three buttons, or it may be closed invisibly. For early fall there will be a fancy collar, which will give place to a collar of gray astrakhan or chin-chilla or perhaps white tibat.

The coat in the illustration has a collar and cuffs of shirred taffeta to match the color of the coat. Some of them have two or three lines of castle braid, generally in narrow widths. The lining depends upon the use to which the coat is put. If it is for school or other everyday use, it should have a lining of some strong stuff, like lustral or farmers' satin; if for best, a silk or brocade lining is expected.

The reason I have been so circumstantial in describing this coat is because it bids fair to be the most fashionable of all, and it is one which mothers will find easiest to copy. "THE PEERLESS LEADER."

The conservative element of the democratic party, composed of men like Cleveland, Dickinson, Carlisle and Watterson, with a large following, is already casting about to devise a plan to reorganize, and gain control of the party. It looks on the face of it as though this would be an easy task, for it was a popular saying at the close of the campaign, "Well this is the end of Bryan and Bryanism." But in the light of events that are daily transpiring the task seems more difficult.

Mr. Bryan himself says that "The fight must go on until it is decided whether plutocracy or democracy shall rule the country." All over the land his admirers are rallying to his support. A meeting was held in Milwaukee last Friday pledging renewed allegiance by proclamation to "our peerless leader, William Jennings Bryan."

The democratic party will discover very soon that there is nothing so difficult to direct and control as blind fanaticism. They will also discover another fact that contributes largely to the difficulty of the situation, and that is that Bryanism has more than a tin horn and hoodlum following.

The Chicago Chronicle has recently published some scathing editorials on Bryanism. One of them was copied in last Saturday's Gazette. The writer has ignored the fact that he is talking to an intelligent audience of highly educated people. His denunciation would come with good grace from the republican press, but from a democratic standpoint it will fall to find many converts.

The dangerous element in the Bryan party is the fine haired, ethical element found in the colleges, universities and pulpits, and among the disgruntled politicians. Men like E. Benjamin Andrews, who has recently struck his native element in Nebraska. Men who write exhaustive treatises on civil government and political economy, and who orate glibly on the dangers of militarism and the benefits of free silver. The Bryan party is honeycombed with this element, and when an enlightened theorist becomes fanatical, he is a hard citizen to control.

It will be remembered that a few years ago Eugene V. Debs sprang into the arena unheralded and in thirty days captured a following that was a menace to the nation. It will also be remembered that Governor Pingree, at that time mayor of Detroit, secured the signature of forty other mayors to a proclamation denouncing President Cleveland for sending United States troops to Chicago to quell the riot. Neither will it be forgotten that when Debs was released from the Woodstock jail that he was invited to occupy a prominent pulpit in Chicago the next Sunday morning.

This is the following that made the Debs riot dangerous, and the same class of men are now captivated by Bryan and his wild theories.

It is no tin pail brigade or cowboy contingency, but intelligent, visionary, theoretical men with plenty of brains turned loose in the wrong direction.

To their minds Mr. Bryan is "a peerless leader" because he is a magnetic theorist.

His sophistries are so plausible that they border on the sublime, and if he could put them in active operation, original sin would vanish like the dew in the morning sun, and a nation would be redeemed in a day.

The democratic party has this element to deal with. If it succeeds in bringing it down to the level of common sense, it will be doing the country good service.

Henry Brisson, leader in the chamber of deputies, is authority for the statement that the socialistic and intellectual classes of France, were in sympathy with Bryan, and are very much disappointed over his defeat. No one will be surprised at the attitude of the socialists, but better things should be expected of the intellectual element; it looks very much as though the latter was an adjunct to the former. France has discovered what was apparent in the late campaign in this country; that a purely intellectual man is frequently an impractical theorist, soaring among the clouds on a good salary.

\$100,000 is being raised for the widow of the late Rear-Admiral John W. Phillips, who died last summer almost penniless. Mr. Phillips was a large hearted man, and his life in the navy, covering a period of forty years, was devoted to the welfare of sailors. The popular subscription, in the hands of J. P. Morgan & Co., of New York, will be invested for the benefit of his wife, and at her death the principal will be spent in the erection of a building near the Brooklyn Navy

yards for the care of seamen on shore. This project was a plan of Mr. Phillips' that his many friends will be pleased to assist in carrying out.

Mr. Bryan has refused a \$10,000 salary offer as editor of a Denver paper, and says he proposes to stay in Lincoln and defend with tongue and pen the principles that he believes to be right. The people of Lincoln are to be congratulated. Mr. Bryan's tongue and pen have both been tested; he has never been accused of watching the clock for the dinner hour, or slipping into his coat five minutes before the six o'clock whistle sounded. He is no time server and his factory will run overtime with no danger of a strike. The Lincoln people will have at least one stable industry.

Miss Clara Barton, of Red Cross fame, is completing plans for a national watch night service to be held Dec. 31, for the purpose of endowing the National Red Cross Society, in the interests of humanity. The movement is so broad in its scope that it should be endorsed by people of every church and people of no church. Miss Barton's name stands at the head of the list of philanthropic workers, and it will live as a sacred memory long after her work is finished.

Pettigrewism, in a violent form, broke out at Pierre, South Dakota, just before election, when the stars and stripes were hauled down by a gang of fusionists. The G. A. R. of the state propose to take the matter up, and make it interesting for the guilty parties. Senator Pettigrew has not much time for the American flag in the Philippines, but he ought not to object to having it float in his own state.

There is likely to be an exodus of defeated democratic politicians to the southern states. Coin Harvey has already cast in his lot with the people of Arkansas. Mr. Jarvis of Michigan, who has been defeated four times for congress during the past eight years, is packing his grip for a prolonged visit in Texas. Mr. Jarvis says that the north is not congenial soil for aspiring democrats.

The popular fusion candidate, John Lind, is defeated for governor in Minnesota, and the state is back in the republican column on state as well as national issues.

Ex-President Krueger, of the South African republic, is to have a great ovation on his arrival in France. It is estimated that 3,000,000 people will meet him at Marseilles.

House Work

Seems easy to a man, but there is a great deal of lifting and reaching to do; a great many trips up and down stairs to make in the course of day's house work. It's hard where a woman is well. For a woman suffering with some form of "female trouble" it is a daily torment.

There are thousands of such women struggling along, day by day, in increasing misery. There are other thousands who have found a complete cure of their disease in the use of Dr. Pierce's Favorite Prescription. It stops debilitating drains, cures irregularity, heals inflammation and ulceration, nourishes the nerves, and gives vitality and vigor. It makes weak women strong and sick women well. It contains no opium, cocaine nor other narcotic.

"For a number of months I suffered with female trouble," writes Miss Agnes McGowan, of 1224 Bank St., Washington, D. C. "I tried various remedies, but none seemed to do me any permanent good. The doctors said it was the worst case of internal trouble they ever had. I decided to write to you for help. I received a very encouraging reply, and commenced treatment at once. I had not used your 'Favorite Prescription' a week before I began to feel better, and, as I continued, my health gradually improved. It is improving every day."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay cost of mailing only. Send 21 one-cent stamps for a book in paper covers, or 31 stamps in cloth, to Dr. R. V. Pierce, Buffalo, N. Y.

MRS. ELLA GIBBS SCALDED EMERY

BECAUSE HE TALKED BAD AND
REFUSED TO MOVE.

Parties Reside in the City of Evansville
and are Well Known—Mrs. Gibbs
Arrested—Defendant is an Aged
Man and is Well-To-Do Retired
Farmer.

Mrs. Ella Gibbs and Hiram D. Emery are neighbors in the city of Evansville. But they are not friends. In the Rock County municipal court this morning before Judge C. L. Fifield, Mrs. Gibbs and Mr. Emery took the witness stand and swore against each other in a way that was interesting to the few witnesses and spectators present.

On the morning of October 30 Mrs. Gibbs threw a quantity of scalding water on Mr. Emery because he refused to get off her land. Emery was anything but pleased over such conduct and the result is that he swore out a warrant for her arrest.

This morning when the case was called several witnesses took the stand in behalf of the State of Wisconsin and the defendant, Mrs. Gibbs.

The complaining witness and defendant are both prominent residents of the Cut Off City and each is possessed of a large circle of friends. Mrs. Gibbs is a member of the Congregational church at Evansville and is a woman highly respected.

The first witness to take the stand was Dr. C. M. Smith. He testified to attending Mr. Emery as the result of his being scalded. Dr. Smith said that the injury was not a severe one.

Mr. Emery then took the stand and told what happened. He stated that he was building a barn on his lot and that about 11:30 o'clock on the morning of October 30 last he went to the rear of the barn to pick up some nails when Mrs. Gibbs suddenly appeared on the scene and almost without warning threw scalding water on him. He said that at the time he had on neither coat nor vest and that the boiling water badly burned his left arm and body. He then went to the house and then to the office of Dr. Smith.

The third witness to testify was C. R. Stewart of Evansville. Mr. Stewart stated that on the morning of the trouble that he saw Mrs. Gibbs go to her kitchen stove and get something off of it that might have been water. He knew nothing of what followed.

Mrs. Gibbs then took the stand and told her part of the story that sent all of Evansville to talking. She said that she respectfully ordered Mr. Emery off of her property and that instead of acting like a gentleman he called her vile names several times. She further stated that Mr. Emery had frequently made her trouble and that he was not a desirable neighbor. Mrs. Gibbs said in part:

"I said to Mr. Emery: Will you please get off of our land. He said that he had a perfect right there and would stay there as long as he pleased — you. Then I warned him for the second time to get off and he replied. This is my land and — you can't put me off. Then I went and got the hot water and used it when I thought that he was removing the surveying stake."

The case has attracted much attention in Evansville as a boundary line case there not long ago nearly resulted in a murder, one man striking another on the head with an axe.

In court this morning Mrs. Gibbs was accompanied by her husband who is a painter by trade. Mr. Emery is a retired farmer about sixty years of age.

District Attorney Jackson prosecuted the case. Whitehead and Matheson appeared in behalf of Mrs. Gibbs.

THE WINSTON RYE WEDDING.

Will Take Place Tomorrow at the
Home of the Bride's Parents.

The marriage of Fred H. Winston, of Evansville, and Miss Agnes Rye, daughter of Ole Rye, a prominent farmer near Johnston, will take place tomorrow afternoon at the home of the bride's parents. The bride is a charming young lady who has grown to womanhood in this county and whose many good qualities have made her a general favorite.

The groom is a prominent young business man of Evansville where he has many friends.

The young couple have the congratulations of a large number of friends. They will be at home to their friends in Evansville after December 10.

THE WIDE AWAKE EXPANDS.

New Addition Now in Progress of Construction for Their Use.

Work has been commenced on the Tallman block, corner River and Milwaukee streets and when the improvement is completed on Dec. 1 W. W. Emmons & Co. of the Wide Awake will have an additional 1,200 square feet of floor space. The business of the Wide Awake has developed so rapidly that more room was necessary and the addition of a story to the rear of the store they now occupy and another on the building occupied by John Fulton as a barber shop will give them splendid space. The new rooms will be connected by an inside stairway with the main store which will make a most convenient way of access. Edwin Kelly, the contractor, has the work in hand and a large force of men are employed on the building.

JUDGE DECIDES HE HAS NO JURISDICTION

LENZ BOYS ASSAULT AND BATTERY CASE IS DISMISSED.

The Statement Given Was Not a Sufficient Showing of Venue—The Whole Dispute Came to a Sudden End in Municipal Court Room Yesterday Afternoon.

The case of the State of Wisconsin against Otto and Frank Lenz, arrested for assault and battery on Thomas Joyce, whose politics did not suit the Lenz boys, came to a sudden ending in the municipal court yesterday afternoon.

The case was called at 10 o'clock yesterday morning and the entire morning was taken up hearing the testimony of the witnesses; nine being sworn on the part of the state and four on the part of the defense.

When the case was called for argument at 2 o'clock, after a recess for dinner had been taken, J. J. Cunningham, who appeared for the state waived the opening argument. W. G. Wheeler who appeared for the defense moved that the case be dismissed for the reason that no venue had been shown on the part of the state and that Judge Fifield had no jurisdiction in the case.

This brought on a lengthy discussion between the attorneys involved, and the stenographer's notes were called for. After reading the notes it was found that in one instance a witness had been asked if the assault took place on Jackson street in the city of Janesville.

Judge Fifield took the matter under advisement and held the case open until four o'clock. At four o'clock he decided that the statement given was not a sufficient showing of venue and that he had no jurisdiction in the matter and dismissed the case.

COUNTY BOARD IS IN SESSION TODAY

Annual Report of the Insane Asylum is Presented—Equalization Board Presents Its Report.

The board of supervisors of Rock county met in annual session at 2 o'clock p. m. in the county clerk's office. The meeting was called to order by J. L. Bear, chairman, nearly the entire board being present.

After roll call the clerk presented a number of requests and petitions which were referred to their proper committees.

The annual report of the trustees of the insane asylum and almshouse also the reports of the physician and superintendent of the same. The reports were referred to their proper committees.

Almeron Eager presented a majority report of the committee on equalization. A resolution was offered to postpone the reading of the report until tomorrow afternoon at 2 o'clock. A vote was taken and the resolution was lost by a vote of eighteen to eight. Mr. Eager then read the report and moved the adoption of the same which was lost.

On motion the report was made a special matter of business for tomorrow at 2 o'clock.

On motion of L. C. Whittet the board proceeded to elect two trustees for the Rock County Asylum for the Insane. W. J. McIntyre was elected for trustee for two years and C. E. Langworthy for the full term of four years.

Y. M. C. A. GIVES ITS FIRST RECEPTION

The ladies auxiliary and the Y. M. C. A. entertained the friends of that institution last night. The occasion was the first public reception given by the association and it was an interesting event. Quite a large crowd gathered in the auditorium. The association band furnished the music.

Dr. Loomis presided and presented the speakers. State Secretary Anderson gave an outline of the state convention program, which is to be given here from November 22 to 25 and detailed the advantages the city would gather from this association.

Attorney A. E. Matheson outlined the educational advantages for the ensuing season and Senator John M. Whitehead made a short informal talk on the Y. M. C. A. and its growth. Mayor Richardson and Prof. Mayne also made brief talks and E. Ray Lloyd gave an exhibition of swinging Indian clubs.

At the conclusion of these exercises interspersed with music by the band, the ladies auxiliary served a luncheon.

Chemical Engine Sent Home. The chemical engine lately rented in Chicago by the city for the use of the fire department during the time the steamer was being repaired has now been returned to Chicago. The steamer is now in first class shape having been thoroughly repaired. Ninety-four new flues were put in the boiler, which has four hundred and forty flues in it. The work was done by the Rock River Machine company. The patrol wagon is again in its accustomed place in the East Side engine house and the fire police are rejoicing over the fact that they have once more a wagon to ride to fires in.

Between 1,000 and 1,500 engineers and firemen on the C. M. & St. P. R. R. system have been notified that material concessions in the matter of pay and working time have been granted to them. The men who handle the throttles on the powerful ten wheelers hence forward will receive \$4 for every 100 miles they cover while in the cabs, and increase of fifteen cents over the old wages. The engineers on the compound engines, which are used exclusively in the passenger service will get \$3.85 for every hundred miles, an increase of fifteen cents over the old wages, and the fireman on the big locomotives will receive an increase of ten cents per 100 miles, the pay being raised from \$2.40 to \$2.50.

Hereafter ten hours will be accepted as a day's work on switch engines, instead of eleven hours, which time has prevailed in the past. Under the eleven hour rule the firemen will receive \$1.75 a day. Under the new rule the firemen will receive \$1.75 a day. The scale for switch engineers, \$2.70 per day will remain unchanged.

On many of the other big western systems the engineers and firemen on the monster train pullers are working to secure increases in pay, and the action of the St. Paul management is expected to act favorably to the cause.

LATE TELEGRAPHIC NEWS.

THE ENVOYS FIX ON TERMS.

Call for Death of Eleven Princes and Officials.

SEVEN DEMANDS FOR CHINA.

Boxer Murders Must Be Paid for—Forts to Fall—Indemnity To Be Paid—Tung-li-yamen To Be Abolished—Congo's Part in Pact.

London, Nov. 13.—Dr. Morrison, writing to the Times from Peking Sunday, says that, pressed by the common desire for a speedy termination of present conditions, the foreign envoys have finally agreed to the following terms, to be presented in a conjoint note which, subject to the approval of the governments, will be pressed upon China as the basis of a preliminary treaty:

"1. China shall erect a monument to Baron Von Ketteler on the site where he was murdered and send an imperial prince to Germany to convey an apology.

"2. China shall inflict the death penalty upon eleven princes and officials, already named, and suspend provincial examinations for five years where the outrages occurred.

"3. In future all officials failing to prevent anti-foreign outrages within their jurisdiction shall be dismissed and punished. (This is a modification of Mr. Conger's proposal.)

"4. Indemnity shall be paid to the states, corporations and individuals.

"5. The Tung-li-yamen shall be abolished and its functions vested in a foreign minister. Rational intercourse shall be permitted with the emperor in civilized countries.

"6. The forts at Taku and the other forts on the coast of Chihli shall be razed and the importation of arms and war material prohibited. Permanent legation guards shall be maintained, and also guards of communication between Peking and the sea.

"7. Imperial proclamations shall be posted for two years throughout the empire suppressing Boxers."

Missionaries Not Named Specifically.

"The indemnity is to include compensation for Chinese who suffered through being employed by foreigners, but not compensation for native Christians. The words missionary and Christians do not occur in the note. Commenting upon what it calls Mr. Conger's 'excellent suggestion for the dismissal of officials permitting anti-foreign outrages' the Times remarks that 'this is the only considerable addition to the terms which the ministers proposed to submit to China last month.' It says the 'American sense of justice and humanity is too strong and American intelligence too keen to be deluded by the pitiful Chinese appeal against the execution of the Paoing-Fu officials.'

Dowager Behaves Treacherously.

Berlin, Nov. 13.—The Lokal Anzeiger publishes the following from its Shanghai correspondent: "Natives from Hankow say that the empress-behaved a number of telegraph officials who accepted a secret message from Emperor Kuang Hsi to Count von Waldersee, informing him that the emperor was being kept a prisoner, and was unable to return to Peking. They also say that other executions occurred in connection with the matter."

More Troops Start for Manila.

Columbus, O., Nov. 13.—Detachments of the Sixteenth, Seventeenth, Nineteenth, and Twenty-third infantry and the Fourth cavalry left the Columbus barracks for Manila to-day, going via New York, where they will be transferred to the transport Kilpatrick and sail immediately. There were 877 men in all, filling two trains, being under command of Captains Buck and Wren.

Eight Killed in a Wreck Near Paris.

Paris, Nov. 13.—Eight persons were killed and fifteen wounded in a collision between a suburban train and an express yesterday morning at Choisy-le-Roi. The suburban train was entering the station to allow the express to pass and the accident occurred then, the suburban train being telescoped. The wreckage was complete and the line was blocked for hours.

Yerkes Has More Schemes.

London, Nov. 13.—"Charles T. Yerkes," says the Daily Express, "has a scheme to radiate electric railways for long distances north of London and to build low-rent dwellings for workmen in order to remedy overcrowding. He is also interested in the mooted scheme of a ship canal between Southampton and London."

South Bend Fireing Captured.

South Bend, Ind., Nov. 13.—John Beyers was caught throwing a lighted match in a pile of brooms at Churchill & White's grain elevator, and the engineer fired a shot in the air to frighten him. Beyers stopped, but while he was being escorted around the building again tried to escape and was fatally wounded.

To Try Soldiers for Murder.

El Paso, Nov. 13.—A special venire of \$80 have been summoned from which to select a jury to try six negroes, soldiers of the Twenty-fifth infantry, accused of raiding the city police station here last winter and murdering Policeman Newton Stewart.

Mother and Son Asphyxiated.

Indianapolis, Ind., Nov. 13.—Mrs. Elizabeth Gunn, aged 86 years, and her son, John, 52 years old, were found asphyxiated in their home, 1151 Linden street. They had been dead since Thursday.

DEATH IN HOTEL FIRE.

Four Lives Lost and Many Are Injured at Poplar Bluff, Mo.

Poplar Bluff, Mo., Nov. 13.—The Gifford house, a three-story frame structure, burned down this morning. Five persons are known to be dead, two fatally injured, and a dozen or more seriously hurt. Eight or ten more bodies are supposed to lie in the ruins. The fire originated in the rear of the hotel and in a few minutes the mammoth building, which was entirely of wood, was a mass of flames. There were in the neighborhood of forty-five guests in the building, and the porter, the only person awake in the hotel, was unable to give an alarm, the smoke and flames driving him back.

List of Casualties.

The list of the known dead: Heck Clark, Doniphan, Mo.; Rebecca Owens, Poplar Bluff; Shelby De Hart, Poplar Bluff; Curley Berry, Poplar Bluff. The fatally injured: Etta Hargrove, Poplar Bluff; Winslow Stowe, Tennessee. The missing: Eugene Dalton, Hot Springs, Ark. The badly burned or injured in jumping from windows: T. A. Smith, Poplar Bluff, terribly burned about the face and hands; Barney Pernaud, De Soto, Mo., hands and face burned; Charles Stradley, Poplar Bluff, bruised and burned; Mrs. Benjamin Shelby, Poplar Bluff, back injured, burned and bruised; Pink Berry; Elmer Freshair; James Upchurch, Poplar Bluff, severely burned.

An unknown woman is also thought to be fatally injured and about a dozen more were slightly burned, or received bruises in trying to escape from the building.

Leap from High Windows.

The fire department was on hand early, but it was unable to give much assistance to the inmates. The guests on the second and third floors were caught like rats in a trap, the fire preventing their escape by the stairs. They leaped from the second and third-story windows.

Heck Clark jumped and broke his back. Etta Hargrove leaped from a third-story window and sustained broken limbs and internal injuries which will cause her death.

Others were also internally injured. Benjamin Shelby forced his wife to leap from a second-story window and thereby saved her life. Mr. Shelby tried to escape by the stairway, but the smoke and flames drove him back. He asserts that he saw ten or fifteen persons in the hallway overcome by smoke. If this proves true a dozen or more bodies may be found in the ruins. Many of the guests had hairbreadth escapes and ran from the doomed building clad only in their night clothes, losing everything they possessed in the world.

Numerous feats of heroism are recorded. If some of the male guests had not aided the weaker sex the death list would be larger.

Many of the guests were not registered and their names are unknown. Every room in the house, forty-five in number, was occupied. Men are now at work on the ruins, but it will probably be several days before the complete list of deaths will be obtainable.

Called a Death Trap.

The Gifford house was one of the oldest hotels in southeast Missouri and it has been considered a death trap for a number of years. W. P. Norrid was the proprietor. He and his wife escaped, but lost everything.

NATIONAL BANK'S BIG LOSS

Bank Loses \$44,000; Flight of the Bookkeeper.

BUSINESS MAN IS ARRESTED.

Collision With a Bookkeeper of the First National of Nashville, Tenn., Charged Against T. P. Brady—Brady Acknowledges Irregular Transactions.

Nashville, Tenn., Nov. 13.—Charges of fraud by which the First National Bank is said to have lost \$44,000 resulted to-day in the arrest of T. P. Brady, a well-known business man, and incidentally threw light upon the disappearance last July of W. W. Lea, an individual bookkeeper in the bank, in collusion with whom Brady is said to have operated.

The disclosures, which caused a sensation in business circles, followed close upon the assignment of Connor & Brady, wholesale grocers and liquor dealers, the members of which firm were T. P. Brady and J. H. Connor.

Bookkeeper Lea left on his vacation July 15 last and at the expiration of his two weeks' rest failed to return to his desk. Lea had been a trusted employee of the institution for over twenty-two years.

It is said errors were discovered in the account of Brady & Connor, and experts were put to work. It is charged that false entries aggregating \$56,000 had been made by the bookkeeper in the accounts of this firm, extending over a period of five years, that over \$28,000 of this amount had been fraudulently obtained since May 1, 1895, up to the date of Lea's departure, and that the work was carried on by Lea by increasing the amount of the firm's deposits on the journals of the institution and decreasing the amount of the checks drawn by the firm against the bank, following this transaction with false extension balances.

By operating this scheme it is charged that the two men drew from the bank \$56,000 in cash, but through the system of entries paid back, through the firm's account, the sum of \$12,000, leaving a net shortage to the bank of \$44,000.

When it was suspected that a member or members of the firm were in collusion with Lea, the bank officials held a consultation with Connor and Brady. It is said that Brady acknowledged the irregular transactions, taking all the responsibility upon himself, stating that he had put the money into the firm's business, with the exception of a small amount which he said he used as an individual.

The members of the firm, after the facts were talked of, figured out that Brady had secured something like \$28,000, and agreed to reimburse the bank to this extent. Meanwhile the guarantee company, which was on the bond of Lea, pushed the matter, with the result that a deed of assignment by Connor & Brady was filed with the Union Bank and Trust Company as trustee.

Sheriff to Risk a Lynching.

Denver, Col., Nov. 13.—Sheriff Freeman of Lincoln county came to Denver this morning, and after visiting the jail said: "I am convinced that John Porter is the man who murdered Louise Frost, after subjecting her to indignities. I intend to take Porter back to Lincoln county. I am sure Lincoln county men are ready to lynch him, and that it will occur as soon as I enter the county, but nevertheless I am going to take him along."

A TRYING POSITION

Janesville Readers Will Appreciate This Advice.

A constant itching tries your patience. Nothing so annoying. Nothing so irritating as itching piles or eczema. To scratch the irritation makes it worse, to leave it alone means misery. Some citizens can tell you how to be free from these troubles. Read the following:

"Mr. L. Lawrence, of 408 S. Franklin St., engineer at the Janesville Electric Light Co., says: 'I tried about everything recommended for itchiness of the skin, but found nothing to give me relief until I struck Doan's Ointment at the People's drug store. I had an affection of the skin on my face caused from the burning oil about the engine and dynamo. My face itched and annoyed me, and rubbing it only made it worse and made it sore. I could hardly stand shaving, for the skin broke and bled. A few applications of Doan's Ointment removed the itchiness and healed up my face in a few days. I would not be without this remedy in my house, and I certainly recommend it to others in need of such a preparation.'"

"I am not Well enough to Work."

How often these significant words are spoken in our great mills, shops, and factories by the poor girl who has worked herself to the point where nature can endure no more and demands a rest! The poor sufferer, broken in health, must stand aside and make room for another.

The foreman says, "If you are not well enough to work you must leave, for we must put some one in your place."

Standing all day, week in and week out, or sitting in cramped positions, the poor girl has slowly contracted some deranged condition of her organic system, which calls a halt in her progress and demands restoration to health before she can be of use to herself or any one else.

To this class of women and girls Mrs. Pinkham proffers both sympathy and aid. When these distressing weaknesses and derangements assail you, remember that there is a remedy for them all. We have on record thousands of such cases that have been absolutely and permanently cured by Lydia E. Pinkham's Vegetable Compound, restoring to vigorous health and lives of usefulness those who have been previously sorely distressed. Here is one of them.

Miss Junglas' First Letter.

"DEAR MRS. PINKHAM:—As I have heard and read so much about your wonderful medicine I thought I would write to you and tell you all about my sickness. I have been sick for four years with womb trouble, have whites, sick headache, pain in my back, and in right and left side of abdomen, feeling of fullness in vagina, am dizzy, weak and nervous. I have used many patent medicines, but found very little relief. Please give me your advice."—Miss KATIE P. JUNGLAS, New Salem, Mich. (May 4th, 1898.)

Compound faithfully and am now well. If you like, you may use my letter for the benefit of others."—Miss KATIE P. JUNGLAS, New Salem, Mich. (May 12th, 1900.)

Miss Junglas' Second Letter.

"DEAR MRS. PINKHAM:—I write to thank you for the good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. It is now six years since I was taken sick. I had falling of the womb and ovarian trouble, I suffered untold pains, sometimes was so bad that I thought I could not live. I used the Vegetable Compound faithfully and am now well. If you like, you may use my letter for the benefit of others."—Miss KATIE P. JUNGLAS, New Salem, Mich. (May 12th, 1900.)

HENRY VILLARD IS DEAD.

Railroad Magnate and Financier Succumbs.

ENTERED THE FIELD IN 1873

Series of Successes Followed Start as Agent—Bought Out Edison—Changed His Name Before Coming to This Country.

New York, Nov. 13.—Henry Villard, railroad magnate and financier, is dead at his summer home at Dobbs Ferry. Mr. Villard had intended to return to New York about the middle of last month, but his condition was then so precarious that his physicians advised him to remain at his country home until he should have gained more strength. A week ago he caught a heavy cold and since then his condition has been gradually growing worse. Two physicians had been with him constantly for a week.

Henry Villard was born Heinrich Hilgard in Speyer, Rhenish Bavaria, on April 11, 1835.

Young Hilgard was educated at schools in Zweibrücken, Phalsbourg and Speyer, but in October, 1853, abandoned his university studies and set out for the United States, intending to join the colony of his relatives at Belleville. His father's opposition to this step made him borrow the surname of a French schoolmate at Phalsbourg, and he became Henry Villard.

Arriving at Belleville he became a newspaper reporter and continued in the profession until 1863. During these years he served as a legislative correspondent in Indiana and Illinois, a political reporter for the Lincoln-Douglas debates, the Chicago convention, which nominated Lincoln; the Lincoln campaign, and later on a war correspondent and a European correspondent. Early in 1881 Mr. Villard acquired the New York Evening Post and the Nation.

In January, 1866, in Boston, he married Fannie Garrison, the only daughter of William Lloyd Garrison. In 1868 he was chosen secretary of the newly founded American Social Science association, having its headquarters in that city, and did not finally relinquish the post till 1871.

Begins His Railroad Career.

It was in the latter year that while on a visit to Europe Mr. Villard began his railroad career. He allied himself with Frankfort and Berlin bankers, and in 1873 returned to the United States, buying for the German bondholders the property of the Oregon & California Railroad company and the Oregon Steamship company. He was made president in 1875. He acted as one of the receivers of the Kansas Pacific Railroad company, and later bought up the bonds of the road. He became interested in the Oregon Steam Navigation company and the Oregon Railroad & Navigation company, of which he became president, and then formed the Oregon & Trans-Continental, with which he merged the two other companies into a so-called blind pool with the Northern Pacific. He was chosen president of the latter company.

Starts Again as Capitalist.

A few years later the companies in which he was interested became so involved that there was a collapse, in which Mr. Villard suffered heavily. Returning to Germany, he formed new financial relations which enabled him to repair his fortune, and coming back to this country he started in once more as a capitalist.

In 1890 he purchased from Thomas Edison his electrical manufacturing interests, and, with the Edison Lamp company of Newark, N. J., and the Edison works at Schenectady, N. Y., as a basis, organized the Edison Electric company, of which he became president, serving in that capacity for about two years.

In October, 1899, he became chairman of the Northern Pacific board of directors, but the panic of 1893 again occasioned the loss of most of his fortune and led to his withdrawal from railroad management.

MARCUS DALY PASSES.

The Montana Copper King and Horseman Dies in New York.

New York, Nov. 13.—Marcus Daly, the famous mine owner and horseman of Montana, died at the Hotel Neherland.

Mr. Daly's death had been expected for weeks. He came home from Europe about the middle of September and soon afterward was obliged to take to the bed from which he never again arose. His physicians informed the relatives some time ago that Mr. Daly could not recover, and they would give assurances of life only from day to day. Bright's disease complicated with heart weakness was the cause of death.

Was Born in Ireland.

Marcus Daly was born in Ireland about sixty years ago. He came to the United States at the age of 13 and settled near San Francisco, where his first work was digging potatoes on a ranch. He went to the mines before he was 15 and grew up surrounded by gold and silver. In this way he gained the practical knowledge of mining which he was to turn to such excellent account in after life. While yet a mere boy he was engaged by Mackey, Flood and O'Brien as foreman of the Comstock mine.

His success in California in the boom days led to an acquaintance with J. B. Haggis, Lloyd Tevis and the late Senator Hearst, who sent him to Montana in 1880 to manage their mines. At that time Daly had only a working interest in this powerful combination.

He had no capital of his own. He took hold of the Anaconda copper properties and managed them so successfully that in twenty years his own profits were about \$20,000,000—or an average of \$1,000,000 a year.

Vast Holdings in Montana.

The Anaconda copper mine property, with its mines at Butte, its smelters at Anaconda, its saw mills in western Montana, and its coal industries in the north and east, is the largest employer of labor in the state, employing 1,000 persons out of a population of 250,000. It reduces 4,000 tons of ore every day, and, during 1889, cut more timber than any other establishment in the United States.

While still retaining his interests in his mining and other enterprises, Mr. Daly some time ago retired from their active management and took up his residence in New York city, where he leased one of the finest houses on upper Fifth avenue. Mr. Daly and Ross Clark, brother of his great rival, ex-Senator Clark, married sisters, Mrs. Daly and a daughter survive.

One of Mr. Daly's hobbies was racing horses. His stable has for years been one of the most famous in America. He owned such noted racers as Hamburg, winner of the Realization stakes in 1898. For this horse he paid \$41,000. His colt Ogden won the Futurity in 1896, carrying \$57,290 with it, and the owner's winnings from the betting ring that day were \$150,000.

His Fight with Senator Clark.

Of late Mr. Daly had figured prominently in politics as the rival of ex-Senator Clark in Montana. Daly had aspirations for the senate himself, and both he and Clark were charged with lavish use of money in buying votes in the state legislatures. It was on charges made by Daly's friends that the United States senate made an investigation which resulted in the unseating of Senator Clark. A pathetic feature of Mr. Daly's fatal illness was that he probably never heard of the victory of his rival in the election last week, the ex-senator's friends being in a majority in the legislature, which will insure his re-election as United States senator.

A Tear for a Pain

Only expectant mothers, or those who have borne children, know the full meaning of these words. Every woman should tell every other woman about "MOTHER'S FRIEND," that wonderful remedy that dispels all pain incident to childbirth. There is nothing like it.

JNO. S. MORTON, of Hartford, N. C., says: "Too much can't be said in praise of 'Mother's Friend.' My wife used only two bottles before confinement and was in labor but twenty minutes. She is doing splendidly, thanks to 'Mother's Friend.'"

Sold by all best Druggists, or will be sent by express paid on receipt of price, \$1.00. Book entitled "Motherhood," containing interesting facts for all ages of the gentler sex, mailed free upon application. Send your friend's address.

POND'S EXTRACT

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same as" POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

Lion and Unicorn.
Upon the accession of James VI. of Scotland to the throne of England in 1563 the crowns of England and Scotland were united and the support of the royal arms have since been the British lion and the Scotch unicorn. There was always before a lion, but on the left some animal from the family badge, as that of the Stuart family was a lion and a greyhound.

The Work of a Volcano.
In 1843, Bauna Loa, one of the largest volcanoes in the world, poured out 17,000,000,000 cubic feet of lava; in 1856, 38,000,000,000 feet. In 1859 the lava stream from this volcano ran fifty miles in eight days. The Peak of Teneriffe, 12,236 feet high, is the greatest altitude in the Canary islands. It is said to be visible at sea in clear weather for nearly a hundred miles.

Mike Found It Bad Walking.
In the course of the terrible march of the Irish fusiliers from Dundee to Ladysmith the men were much fatigued owing to the rough journey. One man in particular stumbled along as if walking in his sleep. An officer passed. "Sir," said Michael, "what country is this we're marching over?" "The Natal tableland, my man," was the reply. "Bedad, sir," said Michael, "I think the table's turned upside down and we're walking over the legs of it!"

AMOS REHBERG & CO. SHOES AND CLOTHING!

For This Week's Buyers.

We are going to offer some extra special bargains in the way of Suits. We want to make this week the banner week of our clothing department, and in order to do so will have to hustle goods out pretty lively, for last week was a hummer. If price inducements amount to anything for you, you cannot pass us by for we are out to make you some money.

Read These Money Savers.

Men's all wool Suits, fully guaranteed, and your money back if you are dissatisfied, usually brings \$15.00 at bargain prices, but we have \$12.00

Suits that have been sold at \$12, \$13.50 and \$14, and well worth it, are put in with a swell lot of \$10.00 ones, and all go at the same price. \$10.00

A fully warranted wool Suit, made throughout in the best possible manner, newest style pattern and latest cuts, a real \$10.00 bargain; \$8.50 this week.

Suits that have been \$8.50, for this week. \$6.50

A full line of \$7 and \$7.50 quality goods put in the pile this week \$5.00 that sells for.

Boys' and Youths' Suits in proportion, and a line of Overcoats for men and boys that cannot be surpassed in height of quality and lowness of price.

Remember, this is a bargain offer made only to try and beat our last week's business, and cannot hold out longer, because it would mean too big a loss.

Come to the Red Front and let us convince you of the genuineness of our offer.
